WAKEFIELD JUNCTION INDUSTRIAL TRACK, ESSEX AND MIDDLESEX
COUNTIES, MASSACHUSETTS

NOTICE OF CONSUMMATION

Pursuant to 49 U.S.C. Section 10502, the Surface Transportation Board allowed the Boston and Maine Corporation's and Springfield Terminal Railway Company's Notice of Exemption to abandon and discontinue service over a line of railroad known as the Wakefield Junction Industrial Track in Wakefield, Lynnfield, Peabody and Danvers, Massachusetts, extending from railroad milepost 9.38 to milepost 19.07 in Essex and Middlesex Counties by decision dated April 4, 2007, effective April 4, 2007. However, this allowance was subject to the condition that the Boston & Maine Corporation notify the National Geodetic Survey ("NGS") at least ninety (90) days prior to conducting salvage activities so that the NGS may plan for the possible relocation of identified geodetic station markers.

In order to comply with this condition, the Boston & Maine Corporation has notified the National Geodetic Survey ("NGS") that the Wakefield Junction Industrial Track (the "Line") is currently owned by the Massachusetts Bay Transportation Authority ("MBTA"), an agency of the Commonwealth of Massachusetts, and that the B&M provides service over the Line pursuant to an exclusive freight easement. Moreover, the B&M further notified the NGS that the B&M has been granted authority to abandon its freight easement and will not be conducting salvage activities on the Line that would necessitate the relocation of identified geodetic station markers, as the B&M does not own the Line or the tracks located thereon.

There being no further regulatory barriers to the consummation of this abandonment and discontinuance, the Boston & Maine Corporation and the Springfield Terminal Railway Company hereby give notice pursuant to 49 C.F.R. Section 1152.29(e)(2) that it has exercised the authority granted and fully abandoned and discontinued service on the line as of April 13, 2007 by discontinuing operations on the line with the intent that the property be removed from the interstate rail network.
